CHAPTER 3

SERVICES PROVIDED TO THE CHILDREN

The services given to the children regarding – counseling, and case report were carried out and are documented properly by the staff of the CCIs. The majority of the CCIs have visiting Doctors on a regular basis, and those CCIs which do not have regular visiting Doctors do conduct regular health assessment by the Para-medical personnel. All the CCIs maintain an individual medical file for the children. The CCIs provides safe drinking water for the children. Formal education is being provided to all the children above 6 years. Besides the formal education, many of the CCIs could also provide vocational training (tailoring, music, art & crafts, steel fabrication, pottery, painting, special Hindi class, etc. to the children. One of the CCIs, i.e. Unity Orphanage Home is also giving Army Pre-recruitment training for the children. Special Education and Physiotherapy service is given to the children by the CCIs who cater to the children with special needs.

CHAPTER 4

All the sanctioned posts are occupied, and the staff of the CCIs are present during the time of inspection. The staffs of the CCIs are observed to be dedicated to the service of the children. The staff of the CCIs do undergo trainings and refreshers course from time to time.

CHAPTER 7

OBSERVATION/REMARKS

Almost all the CCIs maintain cleanliness in and around their premises. Home management and staffs of CCIs have a good rapport. While most CCIs have sufficient space for indoor games and recreation, there are some CCIs without sufficient or no space for outdoor recreation. The CCIs without CCTVs are instructed to install CCTVs as soon as possible. One of the CCIs in Aizawl District, i.e. TNT exceeds the sanctioned capacity at the time of inspection. The restoration process of the children is in progress. Some of the CCIs building rented or otherwise are below the standards, which require improvements. Diets in many CCIs are not up to the standards. The quality of counseling given by the counselors in CCIs could be improved through training and workshops, etc. The family interventions in the process of child restoration in some CCIs are not sufficient and inadequate and are reflected in the slow pace of the restoration process in the CCIs. One of the obvious reasons could be an insufficiency of funds provided to the CCIs.

The Ayahs of various SAA need a better and a special training on handling and taking care of the babies, like – proper feeding techniques and skills.

As a result of a thorough and detailed inspection conducted, it is evident that follow up actions in various corners are to be taken seriously and immediately by Mizoram State Commission for Protection of Child Rights (MSCPCR).
